Release updates

2019.1

EOM 2019.1 changes to site manager

With this release, we have moved two subcategories and removed pages that are no longer supported. These pages were primarily related to features that depended on the EOM digital commerce front-end. Below is a complete list of the pages that have been removed.

Moved subcategories

Marketing > Affiliates is now located in Commerce > Affiliates  
Marketing > Channels is now located in Commerce > Channels

Removed pages by category

Content
